

JOIN US in Lake Worth for our *Historic Settlements* **THE COTTAGES OF LAKE WORTH**

From the wilderness to the Everglades, Florida was anything but a Paradise to early settlers. However, things really began to happen when a clever businesswoman, Julia Tuttle, “Mother of Miami”, convinced Henry Flagler to bring his railroad south from Palm Beach to Miami. This important event helped South Florida grow by creating the little towns, settlements and hotels that sprang up along the coastline.

One “hidden gem” was **Lake Worth**, incorporated in June, 1913, a real historic find that made this area worth a second glance. It’s time to rediscover the City of Lake Worth, so come along as we visit ...

Historic Settlements ... The Cottages of Lake Worth

Depart at 8:30 for a fun day of discovery of Lake Worth’s delightfully colored cottages, built in the 1920’s and 30’s, lovingly preserved by the people who live in this eclectic, artistic community. Blues and pinks and greens and yellows give a tropical feel. Charming doorways and fences entice us to look back to the past.

First stop is the Book Cellar for coffee or tea, a homemade pastry, and a brief presentation by a local historian before your tour begins. View the Cottages - partly walking and partly on the coach - narrated throughout by local professional guides.

After lunch, there’s time to explore Lake Avenue with stops at galleries, specialty shops and unique locations ... with special offers or goodies at selected shops.

Whether this is your first visit to Lake Worth or not, you’re sure to return home with pleasant memories and knowing a bit more about this interesting community right in our own back yard!

Trip includes:
