WEST PALM BEACH – THE SEEDS OF HISTORY *How We Grew From Swampland To Sensational!*

West Palm Beach has always stood in the shadows of its wealthy neighbor Palm Beach, but no more ... today, she's come of age! Join the coming-out party with our “**Curtain Call Tour**” of the “what was” and “what is” in West Palm Beach!

Our **Step-on Tour Guide** starts the adventure at the **1916 Courthouse**, fully restored to house the **Richard and Pat Johnson Museum**. Our docent will lead you through history-based exhibits and the tales of West Palm Beach beginnings and the famous people who played a part in the city’s growth. Enjoy a brief overview of **Clematis Street** and the **Flagler Drive** waterfront where a massive redevelopment project is bringing exciting improvements to the city. You have a chance to see and hear all about **El Cid**, one of the city’s oldest neighborhoods, full of style and charm. As well as hearing about the 12 other historic area neighborhoods with many houses on the National Historic Registry.

West Palm Beach is particularly proud of its new concept shopping area, **City Place**, and, time permitting, we may be able to stop. We’ll also pass the newly updated Railroad Station and then have lunch at the **Butcher Shop Beer Garden & Grill** ... yes, it actually IS a restaurant housing a real butcher shop known for its prime cuts, made-to-order burgers, and specialty choices of chicken and fish.

Depending on the group’s time, we can customize your tour to include other locations of historic interest and development.

Tour program includes:
